STEM Education

Community Impact

This party and networking event will highlight and support two important causes driving a new generation of STEM education, as well as provide the opportunity to meet with the top Colorado Tech industry leaders and get involved with STEM nationally.

H5's STEM INNOVATION CENTER

The H5 Denver Data Center provides a classroom setting on-site where students learn from experts across the data center—ranging from the electrical infrastructure to network connectivity to sales and marketing team— learning about the various career paths available to them and much more.

Programs are available in the following areas: Hardware installation and configuration Server virtualization

Cloud computing—create a STEM cloud Network engineering

Security—hack the STEM cloud

Software as a Service—create cloud-based software

DENVER PUBLIC SCHOOLS CAREER COACH PROGRAM:

An exciting mentorship program for small groups of high school students interested in technology careers. Site visits offer insight on the business, career pathway overviews from staff and a hands-on, as well as an experiential component where high school juniors and seniors can work on-site one or two days a week for credit.

Sponsorship

Sponsorship of the 2018 Summer STEM and Tech Fest provides the opportunity to support Colorado's growing STEM education to a network of prominent tech industry leaders. Please join us in funding these important programs and inspiring a new generation of tech savvy change makers!
