H5 Data Centers' Fully Secure and Reliable Ashburn Facility

Strategically located in the heart of Northern Virginia's Data Center Alley, H5 Data Centers' Ashburn site is a 255,000 square foot new build with access to 42 Megawatts from Dominion Power. Phased M&E deployment with 1st phase available Q3'24.

Join other leading organizations in choosing H5's customizable product that provides infrastructure design and operations flexibility and the ability to depreciate capital investment.

Location. Location. Location.

With more than 1 gigawatt of built capacity in the surrounding vicinity, the number of accessible peering networks is unmatched around the globe. Customers at H5 Data Centers' Ashburn are an ultra-low-latency cross connect away from total network optimization.

Ideal For Connectivity Solutions

LET'S TALK: 833-619-0412
