H5 Silicon Valley: Connecting The West Coast

H5's 96,100 SQFT data center is strategically located in the heart of Silicon Valley—just 29 miles from San Francisco International Airport (SFO) and 5 miles from San Jose International Airport (SJC). This purpose-built facility offers high-performance infrastructure in one of the most connected regions in the world.

Designed with flexibility and growth in mind, our carrier-neutral facility offers access to top-tier network providers, diverse connectivity options, and enterprise-grade security. Whether you're deploying cloud services, enabling low-latency applications, or expanding your footprint, H5 will provide the foundation to support your next stage of growth.

Fully Secure And Reliable Silicon Valley Data Center
